EASY SOFA - 2021

The design of EASY was born from the desire to create a sofa that is beautiful and easy to live with: easy to deliver anywhere, easy to assemble, easy to repair or recycle at the end of its life. As always, the TIPTOE team has placed environmental responsibility at the heart of the project.

EASY is a sofa that has been designed to solve the main ecological problem of this type of furniture: recyclability. The products on the market today are essentially composed of wood, foam and fabric permanently attached to each other with glues and staples that make it extremely difficult to difficult to disassemble.
